Ozark Special Road District
Policy for Driveways Constructed without Permit

“b. Policy for driveways without permit. Motion: Michael Bloom made a motion for a policy addressing driveways installed without an approved permit indicating that if driveways are installed in violation of the approved permit, OSRD will issue a notice to cure/stop work order to allow the property owner to correct driveway agreement deficiencies. If these deficiencies aren’t corrected, OSRD will correct the deficiencies and bill the property owner for this cost. Barbara Hover made second. Approved.”
